SUBJECTS

Acantholytic dermatosis, persistent (case report), 242
Acanthosis nigricans with malignancy treated with cyproheptadine, 695
Acid phosphatase levels in epidermis, 291
Acne and benzoyl peroxide lotion, 91
Acne, comparison of 13-cis retinoic acid and cyprotrone acetate (summary), 725
Acne vulgaris, absence of circulating immune complexes (correspondence), 120
Acne vulgaris in women, testosterone, sex hormone binding globulin and prolactin, 517
Acrokeratoelastoidosis, 337
Acrylic compounds as sensitizers (title), 604
Actinic damage and freckled skin, 27
Actinic reticuloid and photosensitivity (summary), 729
α-Adrenergic interactions with MSH, 113
Agouti mouse coat colour change and MSH, 722
Aldosterone and cortisol plasma levels in psoriasis and atopic dermatitis, 423
Alopecia areata, ultrastructural studies (summary), 736
Amyloid from epidermis in cutaneous amyloidosis, 345
Amyloidosis:
  and C1q deposition, 129
  localized cutaneous, 345
  localized cutaneous, in solar elastosis, 469
Anti-androgens and the hamster flank organ test, 99
Antifungal agents (systemic), 597
Antithrombin III localization in skin, 281
Arachidonic acid and prostaglandin levels in dithranol erythema (summary), 721
Atopic dermatitis plasma aldosterone and cortisol levels, 423

Balanitis (Zoon), treated by circumcision, 585
Basal cell carcinoma and hyaluronectin, 561
Basal cell carcinomas, progression and regression, 305
Basement membrane components in suction blisters, 257
Basement membrane zone, complement and immunoglobulin deposition, 275
Behçet's oral ulcers, 535
Benoxaprofen causing milia (correspondence), 613
Benzoyl peroxide effect on skin micro-organisms (summary), 721
Benzoyl peroxide lotion on inflamed acne, 91
Biliary cirrhosis and lichen planus, 697
Biochemistry. Hyaluronectin in normal skin and basal cell carcinoma, 561
Blister formation with PUVA (summary), 729
Blood content in skin and erythema, 569

  The Vasculitides. T.R.Cupps and A.S.Fauci, 745
Buccal mucosa, psoriatic and non-psoriatic compared, 635
Bullous diseases, lupus erythematosus and vasculitis diagnosed by immunoperoxidase technique, 411

C1 inhibitor deficiency simulating systemic lupus erythematosus, 455
Calcium and the human epidermal cell (summary), 733
Calcium effect of epidermal cells (summary), 733
Cancer of skin and UVR, 43
Candidosis, chronic mucocutaneous, treated with ketoconazole (case report), 240
Carbohydrates of epidermal cell-surface and retinoids (summary), 731
Carcinoma of skin and the electron beam, 429
Carcinomas, basal cell, progression and regression, 305
Carotenaemia, metabolic, 485
Cell-mediated immunity in Darier's disease and effect of retinoids, 141
Cement from Leeds, chromate content (correspondence), 123
Chromate content of Leeds cement (correspondence), 123
Chromate eczema and hapten conjugation, 161
Chronic granulomatous disease (title), 245
Chronic ulceration of the skin, an animal model, 169
Cicatricial pemphigoid immunoelectronmicroscopy, 419
C1q in cutaneous amyloidosis, 129
Colchicine failure to palmoplantar pustulosis (correspondence), 373
Collagen symposium (title), 737
Collagen type IV and laminin in human skin, 267
Compensation report guidelines, 489
Complement and immunoglobulin deposition in basement membrane, 275
Concha scarring in lupus erythematosus (correspondence), 122
Connective tissue diseases and acid lysosomal hydrolases, 523
Contact allergens in animal experiments (summary), 604
Contact dermatitis from matches, 477
Contact sensitivity and DNCB reactivity (summary), 733
Contact sensitization and ultraviolet, 361
Corticosteroid assay, forearm site variation (correspondence), 495
Corticosteroid ointments, dilution evaluated, 445
Corticosteroid skin colour change measured by reflectance spectrophotometry, 437
Cortisol plasma levels in psoriasis and atopic dermatitis, 423
Cowden's disease (case report), 143
Crohn's disease, ulcerative colitis and psoriasis, an association, 323
Cryosurgery for erythroplasia of Queyrat, 581
Cryptococcus neoformans infection (title), 245
Cutaneous lobular neuromyxoma, 211
Cyproheptadine in malignant acanthosis nigricans, 695
Cyproterone acetate and 13-cis retinoic acid compared in acne (summary), 725
5-S-cysteinyldopa in melanoma patients, 53

Dapsone and discoid lupus erythematosus, 105
Darier's disease and cell-mediated immunity, 141
Dermatitis artefacta (case report), 607
Dermatitis, contact, from matches, 477
Dermatitis from chrome and hapten conjugation, 161
Dermatitis herpetiformis, IgA is dimeric (summary), 736
Dermatitis, perioral and renal transplant, 589
Dermatophyte infections. II. Antibody and cell-mediated immune responses, 191
Dermatophyte infections, chronic. I. Clinical and mycological features, 1
Dexamethasone receptors in human epidermis, 299
Diabetes, thick skin and stiff joints, 369
Dithranol erythema, arachidonic acid and prostaglandin levels (summary), 721
Dithranol irritancy in normal and psoriatic skin (summary), 723
Dithranol for psoriasis, short-duration therapy, 135
DNCB reactivity and multiple contact sensitivity (summary), 733
Down's syndrome, epidermolysis bullosa simplex, keratosis palmoplantaris punctata and ichthyosis (case report), 610
Dyskeratosis congenita (Zinsser-Engman-Cole syndrome) (case report), 612
Dyskeratotic skin and tonofilaments (summary), 727
Dystrophia bullosa hereditaria electron-microscopic study (summary), 245

Elastic fibres of skin, scanning electron microscopy, 545
Elastic properties of skin (summary), 603
Electrolysis needles sterilization (correspondence), 373
Electron-beam therapy for cutaneous carcinoma, 429
Electron-beam treatment of scleromyxoedema, 449
Electron microscopy:
  Effect of hydrocortisone on cultured epidermis, 65
  hypopigmented mycosis fungoides, 641
  of Behçet's oral ulcers, 535
  of dermal elastic fibres, 545
  Reticular erythematosus mucinosis, 9
Enzymes:
  Acid lysosomal hydrolases in systemic sclerosis and other connective tissue diseases, 523
  Alpha-L-fucosidase in normal and psoriatic epidermis, 367
  Changes in epidermal acid phosphatase levels and chemical irritation, 291
  Effect of UV-B on epidermal lysosomal hydrolases, 675
  Galactosylhydroxylysyl glucosyl-transferase in suction blisters, 257
Eosinophilic fasciitis (case report), 237
Epidermal cell and calcium (summary), 733
Epidermal cell characterization by flowcytometry (summary), 605
Epidermis:
  Contractility of isolated stratum granulosum cells, 311
  in culture and hydrocortisone, 65
  Skin barrier regeneration after stripping, 551
Epidermolysis in bullosa simplex in Down's syndrome (case report), 610
Epidermolysis bullosa acquisita and cicatricial pemphigoid, 419
Erythema and skin blood content, 569
Erythema multiforme, localized, in lymphatic obstruction, 95
Erythema nodosum and Hodgkin's disease, 593
Erythema of ultraviolet, mechanism, 235
Erythroplasia of Queyrat treated by cryosurgery, 581

Etretinate causing oedema (correspondence), 251
Etretinate in oral lichen planus, 77

Facial eczema from match heads, 477
Fasciitis eosinophilic (case report), 237
Fibroblasts, effect of glucocorticoids (title), 245
Fibrous proteins in psoriatic scales, 627
Follicular mucinosis (case report), 611
Forearm site variation in corticosteroid assay (correspondence), 495
Forehead and scalp refatting compared, 667
Formaldehyde-releasing biocides (correspondence), 251
Formaldehyde sensitivity and formaldehyde-releasing biocides (correspondence), 119
Freckles:
  and actinic damage to skin, 27
  and Thorium-X, 19
  induced by UV-B, 401
Fucosidase, alpha-L in psoriatic epidermis, 367

Galactosylhdroxylysyl glucosyltransferase in suction blisters, 257
Genodermatoses. IBIDS syndrome, 703
Glucocorticoid receptor in rat skin (summary), 732
Glucocorticoids, effect on fibroblasts and keratinocytes (title), 245
Glycoconjugates in human epidermis (summary), 725
Glycoproteins in psoriasis (summary), 605
Graft versus host disease (title), 245
Granulocytopenia and pyoderma gangrenosum (case report), 241

Hair loss in women and sex-hormone binding globulin levels, 331
Hair shaft in kwashiorkor, 407
Hamster flank organ test evaluated for anti-androgenic activity, 99
Herpes gestationis and toxic erythema of pregnancy compared, 499
Histidine decarboxylase activity and ultraviolet light (summary), 730
Histiocytosis X cells and Ia antigens (title), 737
HLA-DR_7 and psoriasis, 227
Hodgkin's disease and erythema nodosum, 593
Hyaluronectin and basal cell carcinoma, 561
Hydrocortisone action in cultured epidermis, 65
Hydrolases in systemic sclerosis and connective tissue disease, 523
Hypogammaglobulinaemia and lichen planus, 357

Ia antigens on histiocytosis X cells, (title), 737
IBIDS syndrome, 703
Ichthyosis, brittle hair, impaired intelligence, decreased fertility and short stature (IBIDS syndrome), 703
Ichthyosis, sex-linked, and low steroid sulphatase (summary), 606
Ichthyosis vulgaris and Down's syndrome (case report), 610
IgA in dermatitis herpetiformis is dimeric (summary), 736
Immune associated antigen in skin disorders (summary), 736
Immune responses in chronic dermatophyte infections, 191
Immuno-electron findings in cicatricial pemphigoid, 419
Immunofluorescent localization of antithrombin III in human skin, 281
Immunofluorescent localization of type IV collagen and laminin in human skin, 267
Immunoglogulin and complement deposition and basement membrane, 275
Immunology:
  Absence of circulating immune complexes in acne (correspondence), 120
  Cell-mediated immunity in Darier's disease: effect of systemic retinoid, 141
  Late prurigo of pregnancy, 511
Immunoperoxidase technique in diagnosis of bullous diseases, lupus erythematosus and vasculitis, 411
Infection:
  Panniculitis-like lesions in Yersiniosis, 481
  chronic dermatophyte. I. Clinical and mycological features, 1
Irritation, chemical and acid phophatase levels, 291

Juvenile pemphigoid with thymic hypoplasia, and autoimmune haemolytic anaemia, 353

Keratinocytes:
  psoriatic, in culture (summary), 731
  effect of glucocorticoids (title), 245
  effect of retinoids (summary), 731
  normal and psoriatic plasma membrane studies. 5. Lectin binding, 317
Keratosis lichenoides chronica, 223
Keratosis palmoplantaris punctata in Down's syndrome (case report), 610
Ketoconazole for chronic diffuse candidosis (case report), 240
Koebner and 'reverse' Koebner reactions in psoriasis, 153
Kwashiorkor: an electron histochemical study of the hair shaft, 407

Laminin and type IV collagen in human skin, 267
Langerhans cell:
  and monoclonal antibody anti-T-6, 287
  recovery after PUVA (summary), 730
  in lichen planus (correspondence), 613
Lectin binding in plasma membrane studies of normal and psoriatic keratinocytes, 317
Leeds cement, chromate content (correspondence), 123
Letterer-Siwe disease, 205
Lichen planus:
  and hypogammaglobulinaemia, 357
  and primary biliary cirrhosis, 697
  of mouth treated with retinoid, 77
  T cell subsets and Langerhans cells (correspondence), 613
Lipid composition of stratum corneum cells, 59
Lipodystrophia centrifugalis abdominalis infantilis, 461
Lithium toxicity, cutaneous manifestations, 107

Livedo reticularis and neurological lesions, 709
Lupus erythematosus:
and concha scarring (correspondence), 122
diagnosis by immunoperoxidase, 411
discoid, and dapsone, 105
profundus, drug induced (case report), 607
simulated by C1 inhibitor deficiency, 455
Lymphocytes and Ia antigen (summary), 736
Lysosomal hydrolases and UV-B, 675
Lysozyme α_1-antitrypsin and α-antichymotrypsin in cutaneous histiocytes (summary), 726
Lymphatic obstruction and localized erythema multiforme, 95
Lymphomatoid papulosis and pityriasis lichenoides, 715

Macroglobulinaemia, Waldenström, specific skin changes, 217
Match heads and facial eczema, 477
Mediators in human skin following UV-A (summary), 728
Medical report for compensation, guidelines, 489
Medico-legal report guidelines, 489
Melanocyte-stimulating hormone:
and mammalian melanogenesis, 116
and skin (summary), 111
B16 Melanoma adenylate cyclase activity stimulated by MSH, 115
Melanoma patients and urinary 5-S-cysteinyldopa, 53
Methotrexate:
and PUVA maintenance in severe psoriasis (summary), 605
maintenance in difficult psoriasis, 621
Methyl (2,3-^{14}C)-acrylate autoradiography in guinea-pig (summary), 603
8-Methoxypsoralen plasma levels, 199
Milia due to benoxaprofen (correspondence), 613
Monoclonal antibody anti-T-6 and Langerhans' cells, 287
MSH:
and α-adrenergic interactions, 113
control of coat colour changes in agouti mouse (summary), 722
receptors, 111
related peptides stimulating B16 melanoma adenylate cyclase activity, 115
Mucinosis:
follicular (case report), 611
reticular erythematous, 9
Mycosis fungoides:
cell population in skin, 385
histiocytes in epidermis, 649
hypopigmented, 641
investigated by immunoperoxidase monoclonal antibody, 379

Nails, onycholysis, 529
Neonatal pemphigus vulgaris, 465
Neuroactive substances and pigmentary harmony (summary), 735
Neurological lesions with livedo reticularis, 709
Neuromyxoma, cutaneous lobular, 211
Neutrophil phagocyte function defect in pyoderma gangrenosum, 685
News and Notices, 128, 255, 498, 621, 748

Obituary. C.W.Marsden, 256
Oedema from etretinate (Tigason) (correspondence), 251
Onycholysis of the big toenails, 529
Oral lichen planus treated with retinoid, 77
Oral ulcers in Behçet's syndrome, 535

Pachyonychia congenita treated with phenytoin (correspondence), 123
Palmo-plantar pustulosis, failure of colchicine (correspondence), 373
Panniculitis-like lesions in yersiniosis, 481
Papular eruption (PEEPO), 393
Pasini's syndrome (case report), 608
PEEPO: papular eruption with elimination of papillary oedema, 393
Pemphigoid, cicatricial, immunoelectronmicroscopy, 419
Pemphigoid, juvenile, thymic hypoplasia and autoimmune anaemia, 353
Pemphigus resistant to corticosteroids treated by plasma exchange, 103
Pemphigus vulgaris in a neonate, 465
Penicillin and chronic urticaria, 183
Perioral dermatitis and renal transplant, 589
Phenytoin for pachyonychia congenita (correspondence), 123
Photochemotherapy in keratosis lichenoides chronica, 223
Phototherapy as prophylactic in polymorphous light eruption, 231
Phototoxicity and actinic reticuloid (summary), 729
Pigmentary harmony and neuroactive substances (summary), 735
Pityriasis lichenoides and lymphomatoid papulosis, 715
Plasma-cell balanitis treated by circumcision, 585
Plasma exchange in corticosteroid-resistant pemphigus, 103
Plasma exchange in psoriatic erythroderma (correspondence), 119
Plasma levels of 8-methoxypsoralen, 199
Plasma membrane studies of normal and psoriatic keratinocytes. 5. Lectin binding, 317
Polymorphous light eruption and phototherapy, 231
Pregnancy:
late prurigo, 511
toxic erythema and herpes gestationis compared, 499
Prekeratin polypeptides, biosynthesis and isoelectric variants (summary), 724
Prolactin, testosterone and sex hormone binding globulin in female acne, 517
Prostacylin (PGI_2) in Raynaud's phenomenon, 81
Prostaglandin and arachidonic acid levels in dithranol erythema (summary), 721
Prurigo (late of pregnancy, 511
Psoriasis:
abnormal glycoproteins (summary), 605
and HL-DR_7, 227
and methotrexate maintenance therapy, 621
and (PYR-MS) (summary), 604

Psoriasis (*cont.*):
Crohn's disease and ulcerative colitis, an association, 323
plasma aldosterone and cortisol levels, 423
response of involved and uninvolved skin to injury, 153
severe, and methotrexate and PUVA therapy (summary), 605
therapy, influence of water and salt solutions (title), 245
treated by short-duration dithranol, 135
treated by UV-B and dose of UV-B in outdoor activities, 33
Psoriatic:
and non-psoriatic buccal mucosa compared, 635
epidermis and alpha-L-fucosidase, 367
erythroderma treated by plasma exchange (correspondence), 119
keratinocyte in culture (summary), 731
keratinocytes, plasma membrane and lectin binding, 317
patients 8-methoxypsoralen plasma levels, 199
scales, fibrous protein content, 627
skin and dithranol (summary), 723
PUVA:
and blister formation (summary), 729
and methotrexate maintenance in severe psoriasis (summary), 605
for solar urticaria, 575
Pyoderma gangrenosum:
in cyclic granulocytopenia (case report), 241
with defect of neutrophil phagocytic function, 685
Pyrolysis mass spectrometry (PYR-MS) and psoriasis (summary), 604

Queyrat's erythroplasia treated by cryosurgery, 581

Raynaud's phenomenon treated by intravenous prostacyclin (PGI_2), 81
Refatting kinetics of scalp and forehead, 667
Reflectance spectrophotometry of skin colour changes from local corticosteroids, 437
Renal transplant and perioral dermatitis, 589
Reticular erythematous mucinosis, 9
13-cis Retinoic acid:
and cyproterone acetate compared in acne (summary), 725
and serum lipids (summary), 726
Retinoids:
(etretinate) in oral lichen planus, 77
and epidermal carbohydrates (summary), 731
effect on keratinocytes (summary), 731

Sarcoidosis and vasculitis, 711
Scalp and forehead refatting compared, 667
Scanning electron microscopy of dermal elastic fibres, 545
Schimmelpenning-Feuerstein-Mims syndrome (case report), 608
Scleromyxoedema treated with electron beam, 449
Sensitization dermatitis and ultraviolet, 361
Sepsis and defective neutrophil phagocyte function, 685
Sex-hormone binding globulin:
levels in female hair loss, 331
testosterone and prolactin in female acne, 517
Skin barrier regeneration after stripping, 551
Skin cancer and UVR, 43
Skin thickened and joints stiff in diabetes, 369
Skin thickness measured by ultrasound, 655
Sodium cromoglycate in atopic eczema, 679
Solar elastosis and cutaneous amyloid, 469
Solar urticaria treated with PUVA and mediator inhibitors, 575
Steroid sulphatase activity low in sex-linked ichthyosis (summary), 606
Stratum corneum and lipids, 59
Stratum granulosum cells contractility, 311
Stretching of skin increases vascularity (summary), 723
Systemic antifungal agents, 597
Systemic sclerosis and acid lysosomal hydrolases, 523

T cell subsets and Langerhans cells in lichen planus (correspondence), 613
T-cells and thymocyte phenotype (summary), 735
Testosterone, sex hormone binding globulin and prolactin in female acne, 517
Thorium-X and freckles, 19
Thymic hypoplasia and juvenile pemphigoid, 353
Thymocyte phenotype in leukaemic T-cells (summary), 734
Tonofilament differentiation in normal and dyskeratotic skin (summary), 727
Toxic epidermal necrolysis, circulating antibodies (title), 245
Toxic erythema of pregnancy and herpes gestationis compared, 499
Transient acantholytic dermatosis (case report), 610
Treatment:
Dapsone for discoid lupus erythematosus, 105
Diluted proprietary corticosteroid ointments evaluated, 445
Electron beam for scleromyxoedema, 449
Electron beam therapy for difficult cutaneous carcinoma, 429
Keratosis lichenoides chronica treated by photochemotherapy, 223
Methotrexate maintenance in difficult psoriasis, 621
of erythroplasia of Queyrat with cryosurgery, 581
of malignant acanthosis nigricans with cyproheptadine, 695
Pachyonychia congenita treated with phenytoin (correspondence), 123
Phototherapy as prophylactic in polymorphous light eruption, 231
Plasma exchange for corticosteroid-resistant pemphigus, 103
Plasma exchange for psoriatic erythroderma (correspondence), 119
Raynaud's phenomenon treated by intravenous prostacyclin, 81
Retinoid (etretinate) in oral lichen planus, 77
Short-duration therapy with dithranol for psoriasis, 135
Short-term effects of benzoyl peroxide lotion on inflamed acne lesions, 91

Solar urticaria treated with PUVA and mediator inhibitors, 575
Systemic antifungal agents, 597
Trial of oral sodium cromoglycate in atopic eczema, 679
Zoon's balanitis treated by circumcision, 585

Ulceration of the skin, an animal model, 169
Ulcerative colitis, psoriasis and Crohn's disease, an association, 323
Ultrasound to measure skin thickness, 655
Ultrastructural studies in alopecia areata (summary), 736
Ultraviolet-A and inflammatory mediators (summary), 728
Ultraviolet-B:
effect on epidermal lysosomal hydrolases, 675
to induce freckles, 401
Ultraviolet:
erythema, mechanism, 235
irradiation and the Langerhans cell (summary), 730
light and skin histidine decarboxylase activity (summary), 730
radiation and nitrogen mustard sensitization, 361
Urticaria:
chronic, the role of penicillin, 183
solar, treated with PUVA and mediator inhibitors, 575
vascular changes (summary), 722
UV in west Scotland (summary), 727
UV-B:
doses in outdoor activities and treatment of psoriasis, 33
phototherapy in polymorphous light eruption, 231
UVR radiometry and experimental photocarcinogenesis, 43

Vascularity of skin increased by stretching (summary), 723
Vasculitis: diagnosis by immunoperoxidase, 411
in sarcoidosis, 711
urticarial (summary), 722

Waldenström's macroglobulinaemia, specific cutaneous manifestations, 217

Xanthomatosis, diffuse plant (case report), 239

Yellow nail syndrome (case report), 610
Yersiniosis infection giving panniculitis-like lesions, 481

Zoon's balanitis treated by circumcision, 585
